

1. Klove provides Christ/family focused entertainment for my children and grand-children. I do not have to worry about what they are listening to.
2. I don't understand the LPFM completely. I do know progress can cause growing pains. I do not have a problem with growth, I just don't want to loose KLOVE for even 1 day. So if change is necessary just do it in a way that KLOVE is not lost.
3. KLOVE is very important to our community. The music, the D.J.'s, the on staff pastors all provide a huge benifit to "neighborhood" as well as my family. My 14 year old daughter has called many times for prayer for friends & family and the staff is always very supportive.

God has called us to a great commision in life. That is to witnes to one another. KLOVE does this on a large scale. Please protect them so they are able to broadcast in the manner/range they are currently able to.
